DOMAINE DES GROTTES DE L'IAN

Groups 2021

Belgium

The Cave of Han reveals itself...

...in a stunning new light.

- Brand new, stunning lighting throughout the Cave
- « Origin », a brand new and breathtaking sound and light show

True to the time-honoured tradition, your English-speaking guide – dressed in period costume – will take you on a voyage of discovery through a fairytale world of its own where time seems to stand still.

Walk through 2km filled with secret galleries decorated with stunning, millennia-old concretions, admire chambers the size of cathedrals, and discover the underground river meandering its way through the Caves.

At the heart of your visit, plunge into the brand new sound and light show « Origin », created by Luc Petit, a well-known Show Director. A fabulous immersive show that will take you on a vertiginous journey evoking the origins of the world and the Cave's creation! During the season, you can admire the guide – torch in hand – coming down from the gigantic Dome Room.

The Domain of the Caves of Han is at the heart of Belgium's very first Geopark, that was recognized as a UNESCO Global Geopark in April 2018.

A large cave interior with a massive stalactite and a light show. The word "Origin" is projected in large, golden letters onto the cave wall, with "by Luc Petit" written below it. Several people are standing on a walkway in the middle ground, looking at the cave formations. The floor is covered in rocks and debris, and the water in the foreground reflects the lights. The overall atmosphere is dark and mysterious, with blue and white lighting highlighting the cave's features.
